

Curriculum Vitae (CV)

Personal information	
First name: fatemeh	Last name: Darabi
Date of birth: 1984/8/17	E-Mail: fatemedarabi43@yahoo.com
Address: Asadabad	Phone number:09368046615
Education	
Ph.D. degree: Tehran University of Medical science Title of thesis: Sexual and Reproductive health education program for secondary school students in Iran: A school-based randomized controlled trial Year of graduation: 2017 Ph.D. degree average: 18.9	
Master's degree: Shiraz University of Medical science Title of dissertation: The effect of Citizenship education program based on Theory of Rezoned Action in school girls students in Shiraz City Year of graduation: 2011 Master's degree average: 19.8	
Bachelor's degree: Tehran University of Medical science Year of graduation: 2008 Bachelor's degree average: 18.5	
Associate's degree: Smart University of Medical Sciences/ Tehran Year of graduation: 2023 Associate's degree average: 17	
Executive experiences: <ul style="list-style-type: none"> - Research associate of Cardiovascular Research Center of Imam Ali Kermanshah Hospital - Head of the research committee in education, especially for the faculty members of the Asadabad School of Medical Sciences - Member of Curriculum Planning Committee - Ambassador of Health - Member of Student Evaluation Committee - Member of the package of strategic, targeted and mission-oriented development of higher health education programs - Member of Professor Evaluation Committee - Member of Clinical Skills Committee - Member of the Internationalization Package of Medical Sciences Education - Member of the virtual education development package - Member of the Responsive and Justice-oriented Education Package - Member of the professional ethics improvement package - Member of the accreditation package, programs, institutions and educational hospitals - Member of the foresight and capacity building package for obtaining scientific authority in medical sciences - Member of the educational economy committee of Karafarini package - Member of the EDC Committee - Responsible for holding an educational program on the occasion of World AIDS Week - Member of Article 6 Committee, Continuing Education - The representative of Region 3 in the accreditation visit of the Office of Continuing Education to Dezful, Shushtar and Behbahan Universities of Medical Sciences. - Member of Ethics Committee 	

- Member of the Publishing Council
- Being a member of the mission-oriented package and promoting the capabilities of universities in the field of territorial development
- Membership of the medical science infrastructure development and promotion package
- The person in charge of the exam evaluation system package
- Member of the macro accreditation committee of Region 3; Continuous education system
- Responsible for conducting interviews for emergency medical students in September 2018 for 3 days
- Participation in the electronic learning fellowship course, Shiraz University of Medical Sciences
- The founder of the ethics committee in biomedical research
- Registration in the corona human resource supply system of the Ministry of Health, Treatment and Medical Education (tracking code 407007943313)
- Member of the Social Harms Committee
- Member of the working group for the development of the program for the expansion of scientific communication with internationally recognized educational and research centers and institutions
- Member of the Scientific Recession Committee
- Member of the Ascii Exam Committee of the Nursing Department (Comprehensive Health Station)
- Secretary of Raad Committee
- Member of the special cases committee
- Responsible for the research affairs of Tu. Anbakhshi Clinic
- Motahari festival secretary
- Member of Motahari Festival scientific committee
- Member of the judging committee of Motahari Festival
- Secretary of the specialized working group on education economics
- Secretary of the university committee for the protection of citizens' rights
- Member of the committee supervising the activities of publications
- Member of the faculty empowerment committee
- Member of the committee for research and innovation in education
- Member of the Research Council
- Member of the strategic council of community-oriented and responsive medical education
- Curriculum planning committee member
- Curriculum revision committee member

Experiences in journal management:

- Research expert, Journal of Research and Health

Membership in state, national, and international communities:

Assistant Professor of Health Education and Promotion

Department of Health public, Asadabad School of medical sciences

Honors:

- Obtaining an excellent degree (19.8) in the master's degree thesis, Shiraz University of Medical Sciences
- Selected research student, Shiraz University of Medical Sciences
- Obtaining an excellent degree (19.9) in the doctoral thesis, Tehran Medical Sciences
- Obtaining the first rank among the graduates of Master of Health Education, Shiraz University of Medical Sciences in 2018
- The best graduate of the master's course, Shiraz University of Medical Sciences
- Preliminary and advanced international rescue certificate of Halal Red Organization of the country
- Member of brilliant talent at Shiraz University of Medical Sciences
- Winner of the 2nd National Women and Science Festival (Dr. Maryam Mirzakhani Award)
- Winner of the best theses festival (Khayyam special award)
- Member of the National Elite Foundation (Sorayya)
- Chosen researcher (third person), Asadabad

- Chosen researcher (first person), Asadabad

Teaching experiences:

- Educational technology
- Fighting uncommon diseases and their epidemiology
- National program to combat non-communicable diseases and their epidemiology
- Research Methodology
- Health measures and first aid in emergency situations
- Public health and epidemiology
- Health education and health promotion
- Principles and generalities of health services
- Health of schools and students
- Oral Health
- Health Economics
- Elderly health
- Immunization
- Health systems in the world and Iran
- Technical language
- ecology
- pregnancy health
- Management of healthcare services
- General medicine and health
- General Hygiene
- Mother and child health
- Medical sociology
- Family Planning
- Principles of management
- Principles of planning
- Demographics
- Studying in the field of public health
- Career training in the field of nursing community health

Participation in training courses and workshops:

- New guidelines for contraceptive methods
- Calculation of sample size
- Inferential statistics
- Research Methodology
- Sampling methods and determination of sample size in all kinds of studies
- statistic analysis
- Creativity
- Mentorship
- Methodological in epidemiological studies
- Andnote
- Essay Writing Workshop Elsevier
- The place of the message in health education and health promotion
- Factor Analysis
- Route analysis
- University rules and regulations
- Student evaluation (level 1)
- Statistical analysis
- systematic development
- Research method and management (special promotion) - Ethics in research
- Educational ethics in research (special promotion)
- Testing in health sciences

- Ethics in research
- Ethics in education
- Calculation of sample size
- statistic analysis
- Creativity
- Mentorship
- Methodological in epidemiological studies
- Andnote
- The place of the message in health education and health promotion
- Introductory spss
- Advanced spss
- Factor Analysis
- Route analysis
- Ethics in research
- Statistical analysis
- Research models in the field of Quran, Atrat and health
- Research method and management (special promotion) - Ethics in research
- Testing in health sciences
- Ethics in biomedical research
- Prevention of corona virus transmission
- Hidden curriculum
- Virtual round
- How to conduct online tests
- Common content creation software
- Course design
- Descriptive test
- Open answer tests
- Holding an online class with Adobe connect
- Holding an online class with homework design in virtual education
- Explaining the concept of social accountability in the field of health
- Hidden planning and its management
- Designing the educational process
- Teaching design and techniques (1)
- Methods of evaluating clinical competence
- Hidden curriculum challenges in learning professional ethics
- Computer-based training
- Introductory theoretical teaching methods - learning theories
- University rules and regulations
- Future research of developments in science, technology and higher education in Madras
- How to prepare educational content for Arman system
- Introductory theoretical teaching methods - learning in adults
- Clinical teaching methods and techniques
- Common mistakes in producing a virtual content
- How to conduct an online exam - Faradid-Navid
- How to hold a virtual class with Navid system
- Clinical evaluation methods and techniques
- Presentation of medical ethics cases
- teaching methods
- The interaction between the professor and the student
- Producing electronic content using Storyline software
- Identification of predatory magazines
- Compilation and revision of the curriculum
- Legal responsibilities of clinical and basic science faculty members
- Intellectual Property
- Clinical training of students in outpatients
- Logbook and folder

- Ethics - review of the journal
- Improving the Ministry of Health's English language training and evaluation package (MHLE)
- Improving the health of the work environment
- How to conduct a good online class
- Introductory clinical teaching methods - clinic training
- medical history; opportunities and threats
- Security of online tests
- Professional lecturing and facilitation strategies in the teaching and learning process of students
- Legal responsibility of faculty members and basic sciences
- The winter school of ethics in the research of Allameh University-Academic ethics of inhibitors and promoters
- Ethics winter school in the research of Allameh University - ethics in academic publications and ways to deal with it
- The winter school of ethics in research at Allameh University - legal aspects of research misconduct
- Psychological support for learners in virtual education
- Ethical challenges in Corona with emphasis on the moral role of people
- Introductory theoretical teaching methods - learning in adults
- Educational scholarship
- Empowering health experts in promoting the general nature of preventive behaviors against Covid-19
- Ethics in Corona research
- Medical ethics
- Grand Round of Medical Ethics
- Academic research
- University rules and regulations
- Getting to know the duties of the consultant
- How to issue a death certificate
- Interaction in virtual education
- Promotion of professional ethics
- Virtual upside down class
- University rules and regulations
- Ethics
- Interaction in virtual education
- Common mistakes in producing a virtual content
- Camtasia software training
- Hidden curriculum challenges in learning professional ethics
- Clinical evaluation methods and techniques
- Clinical teaching methods and techniques
- Assignment design in virtual education
- Educational rules and regulations and consultant professor
- Teaching methods and techniques
- Professional ethics 4
- Professional ethics 5
- Lesson plan in virtual education
- How to conduct an online exam (Faradid-Navid)
- Provide appropriate feedback
- Research summer school

Research projects:

- The effect of the citizenship education program based on the theory of rational action (TRA) in female high school students in Shiraz city in 2019
- The effect of theory-based educational program on reproductive health behavior and its determinants in Iranian students; Using a modified theory of planned behavior
- The effectiveness of training based on the theory of planned behavior on the amount and manner of parental supervision of children 6 to 11 years old in Gonabad.
- The effect of combining the pattern of planned behavior with the locus of control theory of health on the prevention of masturbation behavior in Gonabad teenagers
- Neonatal hypothyroidism in Neishabur city and its relationship with some individual and social factors in 1985-1990: a case control study

- Investigating the prevalence of cervicovaginal infections and its relationship with some individual and family factors in Ferdous city
- The effect of mental health education to the husbands of pregnant women in improving mental health status and reducing depression during pregnancy
- Investigating the state of mental health, social and individual characteristics of suburban and urban drivers of Neishabur city and its relationship with their accidents in 2012
- The effect of educational intervention on improving the physical activity of the elderly in Gonabad city. Gonabad University of Medical Sciences, 1392
- Health control beliefs according to demographic factors in Gonabad students; 2013
- The effect of the educational program on the attitude of caregivers of rehabilitation and care centers for people with mental disabilities in Asdabad city
- Identification of barriers to access of women with disabilities to health services: a systematic review study
- Investigating health-promoting behaviors in type 2 diabetic patients referred to hospitals covered by Esdabad Faculty of Medical Sciences in 2016-2018
- Investigating the behavioral factors related to the quality of life of postmenopausal women covered by the health and treatment center of Asdabad city: the application of the Persed model
- Investigating the effect of training based on the theory of planned behavior on colorectal cancer screening in middle-aged men and women referring to Asadabad health centers in 2018
- The effect of the citizenship education program based on the theory of logical action in male students of public high schools in Asdabad city in 2018
- The effect of education on the prevention of AIDS virus infection by the peer group based on the health belief model in the students of Asdabad city in 2018
- Investigating different departments of the hospital in terms of contamination with the Covid-19 virus in the conditions before and after the disinfection and sterilization of the departments
- Investigating the effect of quantitative and qualitative feedback of end-of-semester exams on the quality of question design during the three-year period of 2017-2019 in the study center of Kermanshah University of Medical Sciences.
- Investigating the effectiveness of collaborative learning based on the jigsaw model on the knowledge, performance and satisfaction of public health students of Asadabad Faculty of Medical Sciences
- Epidemiology of suicide in Asdabad city during the years 2016 to 2015
- Investigating the relationship between spiritual intelligence and aesthetic intelligence with suicidal thoughts of students of Asadabad Faculty of Medical Sciences
- Identification of barriers to access of women with physical disabilities to reproductive health services in Asadabad city: a qualitative study
- Investigating the prevalence and diversity of speech and language disorders in the clients of Dr. Mohammad Kermanshahi's super-specialized children's center
- Determining the psychometric characteristics of maternal health needs questionnaire in Iranian pregnant women
- Examining the health profile and its relationship with maternal and fetal outcomes of pregnant mothers in medical clinics of Kermanshah University of Medical Sciences: cohort of pregnant mothers
- Investigating the relationship between menstrual disorders and related factors among women of reproductive age with covid-19: a cross-sectional study
- Designing, implementing and evaluating the process of integrating theoretical education and early exposure of public health students to the internship course: application of the Preceptor ship & preceptor model
- Investigating the motivations for committing suicide and related risk factors in people aged 15 to 35 years old in Asdabad city
- Investigating the relationship between the nutritional status of pregnant women with the risk of pregnancy outcomes and anthropometric indicators of newborns in Hamadan province: a prospective cohort study
- The effect of educational intervention based on the theory of planned behavior on the promotion of healthy nutritional behaviors in primary school students of Asadabad city in 1400
- Presentation of an intervention model to reduce induced abortion in the health system (project code: 401000602)
- Examining the causes of induced abortion: a regional review (project code: 401000600)
- Investigating the effect of Internet-based health education games on improving the health skills of children and adolescents in the primary health care system: a quantitative and qualitative research (project code: 1003220)
- Investigating the effect of the intervention based on the educational model of risk communication and public participation in reducing the rate of elective abortions in women aged 15-54 in Ardabil city in 2011 (project code: 401000720)
- Registration of early tooth decay in children (ECC) in children under 3 years of age and the effect of electronic care based on the level of caries risk in preventing its occurrence in primary health care (project code: 401000718)

- Examining the psychometric properties of the cognitive and emotional empathy questionnaire for children and adolescents (design code: 401000696)
- Designing a parenting intervention program in order to increase parents' willingness to raise children using the intervention mapping approach (design code: 401000618)
- Setting up of an electronic care and registration center for incisor molar enamel defects (MIH) in 6-7 year old children and some factors related to it in the primary health care system (project code: 40200051)
- Investigating the impact of the educational model of risk communication and social participation in the population increase program of Ardabil city in 1401 (project code: 40100170)

Research grants:

Received a research grant from the Ministry of Health, Treatment and Medical Education with the title "Implementation and evaluation of the training program for the prevention of suicide attempts and suicide leading to death in Asdabad city: the application of intervention mapping approach" Asdabad School of Medical Sciences, year 2023

Experience as being supervisor in education, research projects, dissertation, or thesis:

- Neonatal hypothyroidism in Neishabur city and its relationship with some individual and social factors in 1985-1990: a case-control study (code 4/92)
- Investigating the prevalence of cervicovaginal infections and its relationship with some individual and family factors (code 3/92)
- The effect of mental health education to the husbands of pregnant women in improving mental health status and reducing depression during pregnancy (code 1/92)
- Investigating the state of mental health, social and individual characteristics of suburban and urban drivers of Neishabur city and its relationship with their accidents in 2012 (code 2/92)
- The effect of educational intervention on improving the physical activity of the elderly, 2013

Experience as being advisor in education, research projects, dissertation, or thesis:

Examining the validity and reliability of nutritional behavior and physical activity among adolescent girls aged 12 to 15 years in Tehran based on TPB theory in 2015 using the graded response model.

Participation in meeting, journal club, and conferences:

- Conference on Urbanization and Health Shiraz, 2010
- The third congress of the infant health and prinatology Iran, Zanjan, 2010.
- Conference on Spirituality, Quran researchers and health Gonabad University of Medical Sciences, 2012
- Family Health Promotion Conference, University of Medical Sciences, Sanandaj, 2013
- Family Health Promotion Conference, University of Medical Sciences, Sanandaj, 2013
- National Conference healthy lifestyle, technology, education and health promotion, Birjand University of Medical Sciences, 2013
- Congress and cancer prevention Tehran University of Medical Sciences, 2014.
- National Congress of health education, Imam Khomeini International Conference Center Tehran medical University Tehran, 2016.
- International Conference on Sustainable Development Health School of Health, Tehran University of Medical Sciences, 2016
- Congress Seventh of the latest research achievements (doctor Yalda), 2016.
- News Conference University Shahid Beheshti University of Medical Sciences, 2017
- THE 3rd international and 8th national congress on Health education and Health promotion, 23-25 Aug Isfahan, Iran, 2017
- 3 rd. Annual Gerash Oncology Congress, 30 November – 1 December 2017.
- Medical sciences international congress on Istanbul, Turkey, 2018.
- Iranian society of microbiology. 4-6 September, 2018.
- THE 9th national congress on Health education and Health promotion, and 3th congress on health literacy, 18-20 November Mashhad, Iran, 2018.
- 3rd international and 21 national conferences on environmental health. Zanjan Iran. February 26-28/2019
- The 9th National Health Education and Health Promotion Congress and the 3rd Health Literacy Congress
- The 6th Annual Congress of Iranian Medical Ethics, Fars - Jahrom University of Medical Sciences
- The 8th Annual Congress of Iranian Medical Ethics, Tehran

- The 24th Medical Education Conference
- The 10th International Congress and Student Festival of Reproductive Medicine and the 5th International Congress of Genetics
- International medical education conference
- Participation in the 19th international congress of students of medical sciences universities of the country
- National Festival of Women and Science, second period
- International medical education conference
- Participation in the 20th international congress of students of medical sciences universities of the country
- Seminar on professional commitment in health system services
- The 8th Annual Congress of Medical Ethics of Iran
- The 9th National Conference on Quran, Atrat and Health
- Participation in the 26th Quran and Atrat Festival
- International medical education conference
- Participating in the 10th National Conference on Quran, Atrat and Health with an international approach for the medical community
- Population health and youth conference
- Participation in the 23rd National Medical Science Education Conference and the 15th Shahid Motahari Educational Festival
- Participation in the 24th National Medical Science Education Conference and the 15th Shahid Motahari Educational Festival
- The Festival of Sharing Valuable Experiences (ETA) in Realizing Social Responsibility 1402
- The 10th International Congress and Student Festival of Reproductive Medicine and the 5th International Congress of Genetics
- 1st International Health Literacy Congress & 4th International Congress Health Education and Health Promotion 2023
