

Curriculum Vitae (CV)

Personal information	
First name: Vida	Last name: Ghasemi
Date of birth: 4/5/1989	E-Mail: Vidaghasemi89@gmail.com
Address: Asadabad School of Medical Sciences	Phone number: 081-33112015
Education	
Ph.D. degree: Reproductive health/ Shahid Beheshti University of Medical Sciences Title of thesis: Investigating and Explaining Sexual Health and its Related Factors in Women with Multiple Sclerosis, Design; Implementation and Evaluation of Intervention Year of graduation: 2020 Ph.D. degree average: 19.16	
Master's degree: Midwifery, Tehran University of Medical Sciences Title of dissertation: Comparison the effect of fennel and fenugreek on breastfeeding Year of graduation: 2014 Master's degree average: 18.81	
Bachelor's degree: Midwifery, Lorestan University of Medical Sciences Title of dissertation (if there was): - Year of graduation: 2010 Bachelor's degree average: 17.61	
Associate's degree: - Year of graduation: - Associate's degree average: -	
Diploma degree: Experimental sciences Year of graduation: 2006 Diploma degree average: 19.29	
Executive experiences: Midwife Midwifery affairs in	
Experiences in journal management: -	
Membership in state, national, and international communities: -	

Honors:

- ✓ Obtaining the third rank in terms of GPA in midwifery at the undergraduate level and being considered as a brilliant talent
- ✓ Obtaining the 3rd national rank in the field of midwifery in the master's degree and being considered as a brilliant talent
- ✓ Graduated with a GPA of 19.16 at Phd of Reproductive health and counted as a brilliant talent.

Teaching experiences:

Lesson name	Date	Institution	No
Maternal and infant health nursing	The second semester 1393-1394	Hamadan University of Medical Sciences	1
Maternal and Child Health	The second semester 1393-1394	Asadabad School of Medical Sciences	2
Maternal and infant health nursing	The first semester 1397-1398	Asadabad School of Medical Sciences	3
Reproductive Health	The first semester 1399-1400	Asadabad School of Medical Sciences	4
Maternal and Child Health	The first semester 1399-1400	Asadabad School of Medical Sciences	5
Reproductive Health	The first semester 1401-1402	Asadabad School of Medical Sciences	6
Maternal and infant health nursing	The first semester 1401-1402	Asadabad School of Medical Sciences	7
Maternal and Child Health	The second semester 1401-1402	Asadabad School of Medical Sciences	8
Mother and child health disorders	The second semester 1401-1402	Asadabad School of Medical Sciences	9

Participation in training courses and workshops:

- Certificate of the 80-hour sex therapist training course from the Modat Education Institute of the Ministry of Science and Research
- Certificate of 32-hour instrument making workshop from Shahid Beheshti University of Medical Sciences
- Certificate of participation in the meeting of the determinants and problems of sexual desire from the of Shahid Beheshti University of Medical Sciences
- Certificate of participation in the two-day workshop on evaluation and diagnosis of sexual disorders from Tehran University of Medical Sciences
- Certificate of participation in systematic review workshop from Faculty of Nursing and Midwifery, Shahid Beheshti University of Medical Sciences
- Certificate of 60-hour physiological childbirth course from Hamedan University of Medical Sciences

- Workshops of the Health Development and Technology Office of the Ministry of Health, Treatment and Medical Education

Entrepreneurship:

-

Published books:

Pocket guide to screening tests during pregnancy, Ide Novin, Tehran 1400

Research projects:

- 1- Explanation and examination of sexual function and factors related to it in women with multiple sclerosis, design, implementation and evaluation of the intervention.
- 2- The relationship between serum lipids and endometrial cancer: a systematic review and meta-analysis
- 3- Investigating the relationship between breastfeeding duration and bone density in women: systematic review and meta-analysis
- 4- Investigating the effects of micronutrients on primary dysmenorrhea: a systematic review
- 5- Investigating the relationship between the number of births and bone density in women: a systematic review and meta-analysis
- 6- Investigating the factors related to breastfeeding attitude in lactating women referring to selected healthcare centers affiliated to Shahid Beheshti University of Medical Sciences in 2016
- 7- Treatment methods effective on induction and initiation of labor: a systematic review
- 8- A systematic review on the effect of educational interventions on women's cervical cancer screening behavior
- 9- A systematic review on the effect of model-based educational interventions on breast cancer screening behavior
- 10- The effect of peer education in improving the health of Iranian adolescents: a review article
- 11- Factors related to unwanted pregnancy in teenagers: a review study
- 12- Investigating the effect of interventions on promoting breastfeeding self-efficacy in lactating women: a review study
- 13- Investigating factors related to empowerment in Iranian women's fertility behaviors: a systematic review
- 14- Translation and Psychometrics of Breastfeeding Attitude Questionnaire (IIAFS)
- 15- Translation and psychometry of pelvic girdle pain questionnaire
- 16- Translation and psychoanalysis of breast cancer screening beliefs questionnaire (BCSBQ) in women

<p>17- Investigating maternal and neonatal outcomes in covid-19: a systematic review</p> <p>18- Investigating the status of sexual health literacy and its relationship with performance, satisfaction and sexual self-efficacy of reproductive age women referring to health centers in Asadabad city in 1401-1402</p> <p>19- Investigating the state of sleep quality and its predictors in pregnant women referring to health centers in Asadabad city 1403-1402</p>
<p>Educational grants:</p> <p>-</p>
<p>Research grants:</p> <p>-</p>
<p>Experience as being supervisor in education, research projects, dissertation, or thesis:</p> <p>-</p>
<p>Participation in meeting, journal club, and conferences:</p> <ol style="list-style-type: none"> 1- Investigating the effect of fennel seed tea consumed by mothers on growth parameters of 0-4 month old girl infants. 2- Investigating the effect of fenugreek seed tea consumed by mothers on growth parameters of 0-4 month old girl infants. 3- Investigating the state of urinary incontinence in Iranian women with multiple sclerosis and its relationship with the severity score of disability, anxiety and stress 4- The relationship between breastfeeding attitude and breastfeeding self-efficacy in a sample of Iranian women in 2017 5- The Relationship between Sexual dysfunction and urinary incontinence in Women with Multiple Sclerosis 6- Urinary incontinence in Iranian women with multiple sclerosis and its relationship with anxiety and stress 7- Investigating the relationship between fatigue severity and depression, anxiety and stress in women with multiple sclerosis
